**Left:** The interiors of the family room are both child- and adult-friendly. Washable slipcovers in red and a navy print dress the sofa and chairs. The homeowner envisioned people opening gifts at a baby shower or birthday party as she arranged the furnishings. **Below:** The backyard showcases mature trees, colorful blooms, an emerald-green lawn and a large swimming pool. **Opposite:** In the kitchen, glass-front cabinetry painted white contrasts with black granite countertops. A brick-clad niche for the Wolf range creates a handy backsplash/shelf for spices and oils. Displayed above is a collection of colored glass spritzers.
